

What to Expect at Your Clinic Appointment

MAY 27, 2020

Health Screening for In-Person Clinic Visit

To have a face-to-face visit at UAMS, you must be free of COVID-19 symptoms. **DO NOT** come to your appointment if you have symptoms or think you may have been exposed to someone with COVID-19. If you have tested positive for COVID-19 or have been tested but do not know your test results, call your clinic to see if you should have a phone or video visit or reschedule your appointment.

People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness. Symptoms may appear **2-14 days after exposure to the virus**. People with these symptoms or a combination of symptoms may have COVID-19:

- Fever
- Cough
- Shortness of breath or difficulty breathing
- Chills
- Muscle pain
- Headache
- Sore throat
- New loss of taste or smell

Children have similar symptoms to adults and generally have mild illness. If you have these symptoms or have been around someone who has COVID-19, go to the **UAMS drive-thru screening** at the main campus to be tested for COVID-19.
