

Puzzlemaker is a puzzle generation tool for teachers, students and parents. Create and print customized word search, criss-cross, math puzzles, and more-using your own word lists.

## Broken Heart

Name: \_\_\_\_\_

Workday ID: \_\_\_\_\_

Unit/Area/Clinic: \_\_\_\_\_

Phone Number: \_\_\_\_\_

### ACROSS

6. Backward flow of blood through a defective heart valve
9. Decreased blood flow to an organ, usually due to constriction or obstruction of an artery
10. A lipid surrounded by a protein; the protein makes the lipid soluble (can be dissolved) in the blood
11. The re-closing or re-narrowing of an artery after an interventional procedure such as angioplasty or stent placement

### DOWN

1. Less than normal content of oxygen in the organs and tissues of the body
2. A medicine that helps relax and dilate arteries; often used to treat cardiac chest pain (angina)
3. An injury or wound
4. ST-segment-elevation myocardial infarction
5. A rare condition in which the heart muscle becomes inflamed as a result of infection, toxic drug poisoning, or diseases like rheumatic fever, diphtheria, or tuberculosis
7. A condition in which body function is impaired because the volume of fluid circulating through the body is insufficient to maintain normal metabolism
8. Bodily or mental tension resulting from physical, chemical, or emotional factors
12. A temporary, insufficient blood supply to the brain which causes a loss of consciousness

**Use the clues to fill in the words above.**

Words can go across or down.

Letters are shared when the words intersect.

12 of 12 words placed.
