

Office of Community Outreach and Engagement Cancer Patient Navigation Program

Winthrop P. Rockefeller Cancer Institute at the
University of Arkansas for Medical Sciences

The Winthrop P. Rockefeller Cancer Institute at the University of Arkansas for Medical Sciences has developed a Cancer Patient Navigation Program dedicated to improving cancer care for EVERYONE in Arkansas. You do not need to receive care at UAMS to participate in the program.

Our team includes nurse navigators and community health workers that can help bridge the gap between cancer patients, wellness and financial resources in the community, and health care providers. We are dedicated to helping eliminate barriers to health care and helping individuals take charge of their health.

Our team CAN:

- Help you learn more about preventing breast, cervical, colorectal, lung, and prostate cancer
- Work with you and your family to make the BEST decisions for you
- Help you talk with your doctor
- Connect you with resources for both your medical and non-medical needs including financial and social support for yourself, your caregivers, and your family
- Help you schedule appointments for screening tests, follow up visits, and other care recommended by your doctor
- Discuss applicable research studies and clinical trials that may be available to you

To learn more about the Patient Navigation Program give us a call at 1-855-569-3691 or email us at COE@uams.edu.

To fill out our navigation referral form, scan the QR code or visit redcap.link/NavigationReferral

The Winthrop P. Rockefeller Cancer Institute at the University of Arkansas for Medical Sciences is Arkansas' only academic cancer treatment and research facility. The institute's staff of doctors, nurses, researchers, and other health care professionals is dedicated to improving cancer care for the people of Arkansas and beyond.
