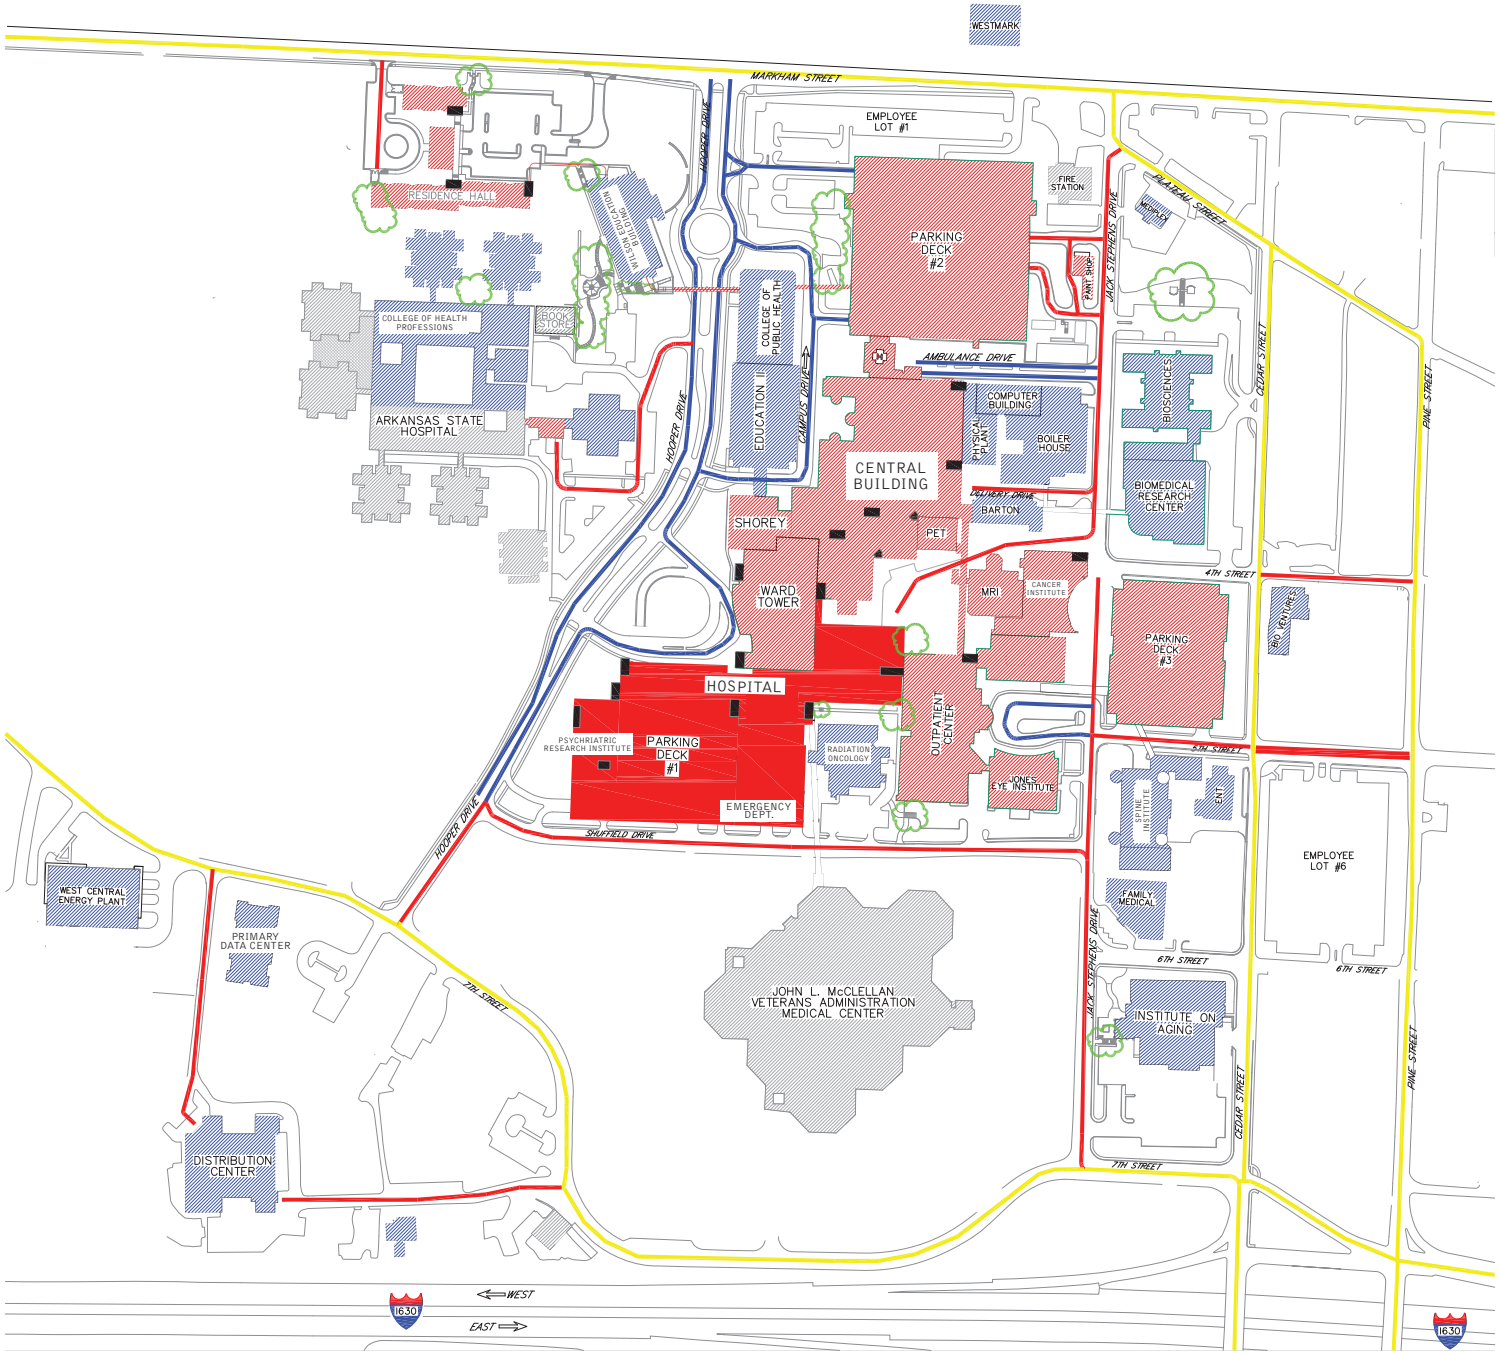
UAMS

UNIVERSITY OF
ARKANSAS
FOR MEDICAL SCIENCES



UAMS CAMPUS INCLEMENT WEATHER PLAN

If snow or ice affects the UAMS main campus, watch for any inclement weather announcements via email to employees and students or posted on UAMS websites (inside.uams.edu, www.uams.edu and www.uamshealth.com).

Additional information, including UAMS inclement weather policies, can be found at www.uamshealth.com/weather.

NOTES ON THE CAMPUS INCLEMENT WEATHER PLAN:

- The first campus routes to be cleared will be between Interstate 630 and Priority #1 areas on the map (specifically those focused on patient care such as the hospital, Emergency Department and Psychiatric Research Institute).
- Parking lot gates may be raised to allow parking for everyone. This will be communicating via email to employees and students as well as posted on the UAMS websites.
- UAMS shuttle service may be suspended. This will be communicated by email and posted on the UAMS websites.
- Streets on the UAMS campus will be treated as quickly as possible in the order of priority on the map.
- Other areas will be cleared as needed after priority areas are cleared.

Employees are asked to use covered/interior walkways or routes to reach work areas.

Be cautious when walking on potentially icy surfaces — including sidewalks, stairs and parking decks that may not yet have been cleared or may have refrozen since being cleared.
